

Create Shortcut to Linux Server (Windows XP or Vista)

- Right click on an empty place on your desktop
- In the context menu, choose "New" and "Shortcut"
- Type the IP address of your Server in the following format:
\\192.168.0.2 (Please replace the IP address with the correct IP address for your Server)
This address will be provided by NetSol.
- Click "Next"
- Type a name for this shortcut, e.g. "Office Server" or anything else referring to this Server
- Click "Finish"

You can now easily browse the Server Folders by clicking on the new Shortcut on your Desktop
